Wirecard Checkout Page – the most successful payment page for your webshop is also available for smartphones. This additional feature is available to you in the usual Wirecard quality:

- ▶ **Easy:** The payment page is easy to retrieve.
- ▶ **Fast:** Seamless integration into your shop.
- ▶ **Accessibility:** Customers will have anywhere, anytime access to your shop.

WHY SHOULD YOUR SHOP BE SMARTPHONE-COMPATIBLE?

In Germany, it is predicted that smartphone sales will increase by 24%, attaining EUR 2.1 billion. Apps will become indispensable for shop operators.

HERE'S HOW WIRECARD CHECKOUT PAGE FOR SMARTPHONES WORKS:

One requirement for using Wirecard Checkout Page for smartphones is that your shop must be optimised for the resolution of a smartphone. In addition, you can adapt the payment page to the design of your website.

SECURITY:

To use Wirecard Checkout Page for smartphones, you don't need any specific SSL certificate. You don't even need to have PCI certification.

ACCEPTANCE AGREEMENTS:

You don't need any more contracts with financial services providers than the ones you have already signed for your webshop.

QR CODE

Use your App (e.g., Barcode Scanner or Google Goggles) to scan in the following QR code and experience the standard layout immediately on your smartphone.
