**Wirecard AG is a leading service and technology provider in the areas of electronic payment transactions, risk management and banking.**

Wirecard AG is a leading international provider of electronic payment and risk management solutions. Around the world, the Wirecard Group supports more than 13,000 businesses from various sectors in the automation of their payment processes and the minimisation of receivables losses.

Wirecard Bank AG is a principal member of Visa, MasterCard and JCB / Diners / Discover / China Union Pay and, as a credit card acquirer, is globally active in over 69 countries, with more than 100 transaction currencies and 18 payment currencies. Wirecard also offers an extensive selection of alternative payment methods which merchants can use to reach their customers around the world - such as iDEAL, eps online bank transfer, and other online banking methods, eWallets, as well as mobile payment processes. Most are offered via a collecting model, so that merchants only need to work with one bank that consolidates all payments.

## (v) hybris extend

Wirecard also provides merchants highly effective and proven risk management tools that effectively reduce fraud and other risks without getting in the way of "good business" and negatively impacting overall sales.
