

# TRUSTLY

## EASY AND SAFE ONLINE PAYMENTS

Trustly is an Online Bank Transfer that allows consumers to pay directly through their internet banking account. Benefits:

- ▶ In cooperation with several banks
- ▶ Almost all online banking users in the supported countries can be addressed
- ▶ Zero payment default risk
- ▶ Real-time payment success notification
- ▶ Goods / Services can be immediately shipped to the consumer

**Trustly is an Online Bank Transfer that allows consumers to pay directly through their internet banking account. By offering Trustly on their payment pages, merchants easily can address almost anyone with a bank account in one of the supported countries.**

**Trustly can be used from consumers in Sweden, Finland, Estonia and Poland in cooperation with several banks as safe alternative to credit and debit cards.**

Upon selecting Trustly as preferred payment method on the merchant's payment page, the consumer as well as all shopping cart information is transferred directly to Trustly website. The consumer chooses his bank and Trustly then issues a unique transaction number for reference. The consumer completes the payment process by log-in into his online banking account and confirms the transaction with a TAN. The payment is sent as regular bank transfer and notification to merchants is available within a couple of minutes. Otherwise, if the bank is not supported the transfer will take 1-3 bank days.

Trustly offers merchants a safe and for consumers easy to use online payment solution that facilitates the payment process as well as guarantees payment. There is no risk of payment default as the consumer authorizes the payment directly from his personal bank account in real-time.
