Wirecard Checkout Portal: easy online setup in real time

- **Fully automated solution for payment processing**

Aschheim (Munich). Following the soft launch at the start of this year, the Checkout Portal created by the Munich-based technology and payment specialist Wirecard is now available with all functions. At www.checkoutportal.com Wirecard offers a fully automated solution for the rapid configuration and acceptance of all common international payment methods. The entire setup process is completed online without any change in media. The Wirecard Checkout Portal allows even smaller retailers to link their shops to international e-Commerce.

The Wirecard Checkout Portal is intended for small and medium-sized companies and private sellers who require quick and easy access to all common payment solutions. Market places can use the online configurator as a co-brand or white label solution.

Christian Reindl, Executive Vice President Sales Consumer Goods at Wirecard, comments: "With the Wirecard Checkout Portal, we are offering our customers and partners an even more efficient method of online payment processing, which can be adapted to meet all individual requirements. Retailers can choose from a wide range of payment methods and at the same time improve their conversion rate. The high demand for this product has shown us that online retailers have long been in need of a fully scalable, international solution like this."

The sign-up process at www.checkoutportal.com is quick and easy with the online configurator: the plugins for all standard e-Commerce shop systems allow retailers to easily manage their online shop with payment solutions that are accepted worldwide and required at local level. It also facilitates recurring payments. Retailers also have the option of adding further services including risk management solutions and banking. They then complete registration online and can upload any necessary documents to their personal dashboard. Following the successful completion of the contract online, retailers can accept payments in their online shop in no time at all.

About Wirecard:

Wirecard AG is one of the world's leading independent providers of outsourcing and white label solutions for electronic payment transactions. The Wirecard Group supports companies in accepting electronic payments from all sales channels. A global multi-channel platform bundles international payment acceptances and methods, supplemented by fraud prevention solutions. When it comes to issuing their own payment instruments in the form of cards or mobile payment solutions, Wirecard provides companies with an end-to-end infrastructure, including the requisite licences for card and account products. Wirecard AG is listed on the Frankfurt Securities Exchange (TecDAX, ISIN DE0007472060, WDI).
