

## PRESS RELEASE / Consumer Goods

06 December 2016

### **TÜV NORD places trust in Wirecard's payment services**

- **Integration of wide range of payment solutions in TÜV NORD's online shop**
- **Special service offered: buy on account with payment guarantee**

Aschheim (Munich). The electronic payment specialist Wirecard will handle all payment processing for TÜV NORD's online shop in future. Potential customers who are interested in further trainings will now have the option to select and directly book events offered by the service provider in the field of technology and safety online. Wirecard is incorporating all common payment methods in this service, among others Visa and MasterCard and will process the payments. In addition, it will be possible to buy on account with a payment guarantee in the near future. Alongside the payment default risk, Wirecard will be responsible for issuing invoices and payment reminders on behalf of the retailer.

"We are delighted that a big name like TÜV NORD is placing its trust in our solutions and has chosen to work with us," comments Christian Reindl, Executive Vice President Sales Consumer Goods, Wirecard AG. "With the payment method 'purchase on account' for tickets and educational offers, Wirecard enables a significant added value for retailers and customers alike. The merchant forwards the entire handling process to Wirecard, conserves his resources and profits from the Wirecard payment guarantee."

Hans-Werner Tolksdorf, Project Manager at the TÜV NORD Online Academy: "Together with Wirecard, we will be able to successfully create an online education service for TÜV NORD that is well-connected, innovative and future-oriented. We offer our customers a wide choice of payment options and, in this way, make it easier for them to access professional education and training opportunities."
